

O₂ ANALYSER – CANAL 111

Portable analyser operated with battery on mains. Gas testing with a pump. It tests very quickly and is easy and handy to use. The device automatically switches off after use to save battery power.

Electrochemical O₂ sensor

- Measuring range: 0 - 100%
- Resolution: 0,1%
- Response time: 12s
- Gas volume needed for measurement: 10ml

Technical specifications

- Sensor: Electro-chemical measuring cel (lifetime: 4 years in air)
- Working conditions: +5°C - + 40°C

Physical specifications

- Supply: Battery 9V
- Size: 19 x 10 x 4 cm
With suitcase: 27 x 22 x 5 cm
- Weight: 0,4 kg
With suitcase: 0,7 kg
