

Strip Cutter for film and paper

Product code [RL-SCFP-A](#)

RYCOLAB

The film-/paper Strip Cutter was developed to cut over for instance DIN A 4 large film or paper sheets up to 10 pieces parallel strips in one processing step. These strips can be used for further evaluations (e. g. tensile strength, tension, elastic module, etc..) in accordance with the international standards.

Features

- Two-way cutting
- Adjustable connecting strip
- Adjustment over curved surface ensures a clamping free from creases
- Cutting movement over lever guidance
- Cutting angle adjustable
- Easy and save knife exchange
- Knife changing device included

Technical specifications

- Strip Length: approx. 230 mm
- Thickness of film or paper: approx. 5 μm up to 250 μm (depending on material)
- Strip Width: 10, 15 or others (on request)
- Weight: approx. 29 kg
- Dimension (WxdxH): 420 x 290 x 340 mm
