

ZPV PRECISION VACUUMPLATES

- Totally flat precision-vacuumplates for fixing a large number of substrates
- For preparing uniform films of coating materials, adhesives and similar products with applicators
- For use in laboratories and in the field
- For silk-screen printing
- Easy to handle

Application

The ideal, flat support for fixing a large number of objects. The vacuum created holds down objects during application by means of the holes

Application areas

- For the paint-, varnish, and chemical industry as well as for the printing trade
- Helpful accessory for use with film applicators
- For silk-screen printing
- For holding of rigid objects such as paper charts, test panels, plastics and glass plates

TECHNICAL SPECIFICATIONS
