

Drum dryer

This drum dryer is specifically designed for drying hand sheets in larger quantities with precise temperature control.

It can handle laboratory sheets with a size up to 300 x 300 mm.

In order to dry different sheet weights and final humidity, the drum speed and temperature can be adjusted precisely.

Safe operation is achieved with closed air heaters - no hot water, steam or hot oil is used.

Features

Rapid and consistent sheet drying by controlling the drum speed and temperature

Felt carrier for drying laboratory hand sheets

Nickel plated aluminium drum is 30 cm diameter with a 40.5 cm face

Digital temperature control with a thermocouple feedback sensor

Stainless steel rolls and frame

Technical specifications

Motor

Variable speed drive motor control, 0-8 rpm

Heat

Heat input available 3200 W

Power supply

240 V, 60 Hz, 1 Phase

Physical specifications

Dimensions

74 x 61 x 41 cm (W x L x H)

Net Weight

64 kg

Options

- Teflon® mesh carrier fabric
- Release polymer coated drum
- Different motor speeds
