

Scorch/Sublimation Testers

The Scorch Tester determines colorfastness and shrinkage to hot pressing and dry heat. This instrument is available in two different hot plate sizes. The top plate has a unique hinge and spring pin design to ensure even pressure across the sample. Each plate temperature is individually controlled and a timer is integrated with the device.

- » Two sizes available
- » Individually controlled plate temperatures
- » Temperature range ambient ~230°C
- » Balanced top plate
- » Integrated timer

Standards

AATCC 92 - AATCC 114 - AATCC 117 - AATCC 133 -
